**PIL BREDAHL ON THE DESIGN** "The storage system is made for the modern nomad and inspired by the fact that we move more often in our lives than ever before. It can be separated and assembled very easily. It has a clear sculptural value and you can put it in the formations you like best. When it's not used for books, magazines, clothes, etc., It can lay on the floor, each ring inside the bigger ring creating a beautiful pattern."

As an award winning Danish designer, Pil Bredahl is one of the young up-and-coming Scandinavian designers eager to be part of the next golden age of Scandinavian design. Apart from receiving awards Pil Bredahl's work has been exhibited at leading international museums.
