

Crown Candelabra

Made from cast iron with a black powder coated finish, the Crown Candelabra is a decorative accessory designed to hold a variety of candle sizes.

Process Made in a four part mould using the technique of sand casting. The process involves compacting sand into a casting box around the tool, then remove the tool and pouring in liquid iron to form the shape. Once solidified the parts are welded together, machined and polished to a create the surface finish. Visual signs of the manufacturing process are evident in the rough edges, adding to its industrial aesthetic.

Year of design 2009

Material Cast iron, black powder coat

Product code Crown CRT01

Type Table Accessories

Colour Black

Cleaning instructions Use a soft damp cloth to clean the parts only, no abrasive agent. Assemble on a soft cloth to avoid scratching the frame.
